EXPERIENCE

Senior Android Engineer · Coremain · Stellantis

Jun 2024 — Present

- Native Android development for vehicle platforms.
- Shared cross-platform logic with Kotlin Multiplatform.
- Continuous quality: code reviews, TeamCity and SonarQube.

Tech: Kotlin, KMP, Jetpack Compose, Coroutines, Flow, Koin, TeamCity, SonarQube

Senior Android Engineer · SIVSA · Stellantis

Mar 2023 — May 2024

- Device-to-vehicle connectivity: implemented Bluetooth protocols.
- Kotlin features on an MVVM architecture.

Tech: Kotlin, Bluetooth, MVVM

Senior Android Engineer · SIVSA · OMNI project

Oct 2019 — Feb 2023

- Refactored the architecture towards modern, maintainable patterns.
- Code reviews, team best practices and CI/CD integrations.

Tech: Kotlin, Java, CI/CD

Android Developer · zinkers.io

Mar 2016 — Jun 2019

- Sole Android developer: 12 client apps, from design to Google Play release and maintenance.
- Apps: LaLiga Fantasy MARCA, SmartStation (white-label with product flavors), Padeltrack, Bingo Falomir, Styloo, Haulap, IOBI Cloud.

Tech: Kotlin, Java, MVP, MVVM, Dagger 2, Retrofit, RxJava, Room, Firebase, Crashlytics

Android Developer (internship) · Incomar Informática

Mar 2015 — May 2015

- Native expense-management app with JSON web services and a PHP and MySQL back end.

STACK

Architecture: MVVM, MVP, Clean Code

Tools: Gradle, Git, TeamCity, SonarQube, Jira, Firebase, Crashlytics

Also: Java, RxJava, Flutter · AI in daily work (Claude, GitHub Copilot, Gemini)
